

JUNE 7, 2020
JESUS HEALED TEN MEN

GAME TIME

MAKE BATH BOMBS

Combine equal parts lemon juice and water in a spray bottle. In a large bowl, add equal parts baking soda and Epsom salt. Invite boys and girls to take turns using a large wooden spoon to stir the mixture. Shake the spray bottle. Allow children take turns spraying the liquid mixture onto the dry mixture one spray at a time. Mix after each spray. Continue until the mixture reaches the consistency of wet sand and is malleable. Add essential oils or food color if desired and stir to combine. Help children press the mixture into lined muffin tins to mold. Remove the bath bombs and store in ziplock bags.

SAY: *Once your bath bomb dries, you can put it in your bathwater. The salts and the oils will dissolve in the water and make your skin feel smooth and soft. When Jesus healed ten men with a skin disease, I wonder if their skin was softer than ours will be. Jesus healed the men's skin disease, but He also heals people from something greater than sicknesses: He saves us from our sin. Let's pray and thank Jesus for taking the punishment for our sin so we can be made new when we trust Him.*

BIBLE STORY

Luke 17

Jesus was going to Jerusalem when He stopped in a small town. Ten men cried out to Him, "Jesus, Master, have mercy on us!" The men stayed away from Jesus because they had a skin disease. They had to stay far away from everyone until their sickness went away so no one else would catch it.

Jesus saw them and said, "Go and show yourselves to the priests." Jesus wanted the men to follow a law that God had given to Moses. The law said if a person had been healed from a skin disease, he had to show himself to the priest so the priest could say he had been healed.

As the ten men went to the priest, they all were healed. One of the men hurried back to Jesus. He praised God, fell down at Jesus' feet, and thanked Him. This man was not a Jew; he was from Samaria.

SPOT THE DIFFERENCE

Help the kids form pairs. Instruct each pair of kids to face and study each other. After a few moments, the kids will turn away from each other, and each kid will change one aspect of her appearance, such as untying a shoe, raising an eyebrow, removing glasses, and so forth. Then, the kids will turn to face each other again. The first kid in each pair who correctly identifies the change in her partner will move on to find another partner. The other kids will sit out.

SAY: *That was tricky! In our story today, we will learn about a group of ten men who seemed pretty similar. All of them were suffering with the same skin disease. When Jesus healed them, it changed their lives! One man had an even bigger change in his life besides just being healed.*

Jesus asked, "Didn't I heal ten men? Where are the others?" Only one man had come back to say thank You and give praise to God.

Jesus said, "Get up and go on your way. You are saved because you have faith."

CHRIST CONNECTION:

Ten men cried out to Jesus, and He healed them. One man had faith and was saved. When we trust in Jesus, He heals us from something greater than a disease; He saves us from our sins. We can thank God and worship Him for making us new.
